

STOP THE LEAKS

Reduce Duct System Leakage by up to 15%!

Installing Zulu Mat™ Improves:

- Energy Savings
- Indoor Air Quality
- Odor Control
- Humidity Control

Zulu Mat is a cost effective method to help ensure duct systems pass leakage tests and achieve a higher **HERS** rating.

Zulu Mat™

CHANGING AIRFLOW ONE SEAL AT A TIME

US Pat. Pending 2013-0180204-A1

With today's building codes focusing on greater energy efficiency and reducing duct system leakage, Zulu Mat is the most cost effective way to eliminate air leakage between the sheet metal register can and drywall. Installed between the air register and drywall, Zulu Mat seals the space between the drywall and the sheet metal can, eliminating any air leakage of conditioned air into the unconditioned spaces.

Zulu Mat is designed to help meet the intent of Item 4.1 of the **ENERGY STAR** Certified Homes, Version 3 (Rev 07) HVAC System QI Rater Checklist. For more information, see www.energystar.gov/newhomesguidelines
